What's Next in Endodontics?

05 de Novembro de 2013

JOHN WEST

Curriculum Vitae

As the founder and director of the Center for Endodontics, Dr. West continues to be recognized as one of the premier educators in clinical and interdisciplinary endodontics. John West received his DDS from the University of Washington in 1971 where he is an Affiliate Associate Professor. He then received his MSD in endodontics at Boston University in 1975 where he is a clinical instructor and has been awarded the Distinguished Alumni Award. Dr. West has presented in North America, South America, and Europe while maintaining a private practice in Tacoma, Washington. John is a clinical visionary, an inventor, a teacher, and a coach for any dentist that wants to experience the possibilities of endodontics in his or her practice. He coauthored Obturation of the Radicular Space with Dr. John Ingle in Ingle's 1994 and 2002 editions of Endodontics and was senior author of Cleaning and Shaping the Root Canal System in Cohen and Burns 1994 and 1998 Pathways of the Pulp. He has authored Endodontic Predictability in Dr. Michael Cohen's 2008 Quintessence text Interdisciplinary Treatment Planning: Principles, Design, Implementation, and Michael Cohen's 2010 Quintessence text Interdisciplinary Treatment Planning Volume II: Comprehensive Case Studies and is lead author of Esthetic Management of Endodontically Treated Teeth in Ronald Goldstein's "in print" third edition of Esthetics in Dentistry.

Presentation

A lecture on predictable and reproducible endodontic shaping by knowing how to Find, Follow, and Finish all canals. You will learn the lost art of manual and the new art of mechanical Glidepath preparation resulting in safe rotary. New thinking, technique, and technology can produce unprecedented endodontic performance creating a simple and significant result: FUN!

Objectives:

1. Learn how to Find, Follow, and Finish all canals
2. Master the mechanics of a Glidepath for safe mechanical shaping
3. Discover the nuances of new generation shaping technique
4. Become the endodontic clinician that YOU want to be
5. How to immediately Implement new skills into your current shaping sequence
